EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ryan W. Cagle on March 02, 2007.

IN THE CLAIMS –

Claim 35, line 1, change "claim 35" to --claim 34--

Allowable Subject Matter

Claims 1-43 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-43 were rejected under 35 USC 103(a) in the previous office action and the rejection is withdrawn in light of applicant's argument and amendment that none of the references do not disclose or suggest a method of converting an acyl protected taxane molecule comprising treating the primary amine compound with a hindered base to effect acyl migration and form another taxane molecule

Claims 1-43 were rejected under 35 U.S.C. 101 and 35 U.S.C. 112, first paragraph in the previous office action and the rejections are withdrawn in light of applicant's argument and amendment.

The closest prior art is US 5,679,807. The prior art of record teaches that the similar method of converting a taxane molecule which does not disclose or suggest acyl migration as the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "comments on Statement of Reasons for Allowance."
